

Compensation and Tax Strategies

Course Description

This course examines the various ideas, methods, and techniques capable of optimizing the overall compensation package for key employees and principals in small to medium sized businesses. Qualified and non-qualified deferred compensation, benefit targeting, insurance programs, statutory fringe benefits, interest free loans, and investment planning are investigated. Effective pay plans essential to attract, motivate, and retain key people are described and evaluated. Consideration is given to indirect compensation in the form of business entertainment, expense accounts, auto use, travel, and transportation. Equity participation is explored through stock sales, repurchase agreements, incentive stock options, ESOTs, stock options, and bonuses. The new field of professional services is probed to provide tax, financial and estate planning to the key executive.
